

How to Increase Your Child's Levels of Confidence, Energy, and Enthusiasm...Until they Become Virtually Unstoppable!

Dear Parents,

What would you do if you had the opportunity to give your child a jump start in building their Confidence, Energy and ability to say no to Negative Peer Pressures and Bullying?

- Academic Achievement
- High Self-Esteem
- A Fit, Healthy lifestyle

At "Canada's Best Karate," martial arts style does teach children how to defend themselves; more importantly the emphasis of our teaching is on Building Self-Esteem through having fun... We know that if kids have self-esteem they are not going to get picked on and will do better in school. We also understand that no one learns unless it's FUN!!

ALL FOR A MINIMUM DONATION OF \$25 TO YOUR ELEMENTARY SCHOOL

Here is what one parent says:

Before I brought my son Robbie to "Canada's Best Karate", he couldn't really seem to focus or pay attention. With him going into grade 1 I didn't want him to fall behind or become distracted by the other students. My friend had told me about Canada's Best and how that helped her son to focus. I called and brought Robbie down to try a class. I watched as the instructor had him focused and listening to every word in awe; later we signed Robbie up to the beginner program and are happy to say that his teacher says that he is a delight in class. Thank you Canada's Best Karate.

By joining Canada's Best Karate's After School Program you can expect these skills to work at home and school. The fun 2 week trial program will allow your child to start and to see instant results.

In Fact, Once your Child starts their class, He or She will build:

- Self-Esteem - With the positive reinforcement that they are great kids and they can do it!
- Self-Discipline - By using fun, attention building drills your child will build focus!
- Self-Confidence - With building the above attributes your child will know that he/she was the one to do it and they did it by themselves.

Remember All KIDS learn while Having FUN!

If you are among those who don't want to "wait" for these important life skills... if you are committed to providing the best possible opportunities for your child-RIGHT NOW-we are offering a **Two Week After School Program at your Elementary School.** Another bonus of taking part in the after school program is that you are able to take part in normal classes at Canada's Best Karate for FREE, as well as at the end you are entitled to a private lesson.

We are looking forward to hearing from you

Sincerely

Sensei Jordan Giebel
